ANOTHER ENEMY TO CONQUER

Here is a home front fight that every-one can get into. Last year in this state 558 brush and forest fires burned over 4,648 acres of land, of which 2,788 acres were valuable timber and young growth. With available manpower the lowest of any year since the war started, you can help to keep this loss down by preventing these fires from starting.

Keep in mind these simple rules:

1. Always get a permit from your forest fire warden before starting any fires in the open. Burning under certain conditions is permitted.

2. Never burn unless you have enough help to control your fire--a permit does not excuse you of negligence in case it gets away.

3. Always report any uncontrolled fire promptly to your forest fire warden. Minutes lost are acres lost.

4. Be especially careful with cigarettes, matches and pipes. Smokers caused most of our fires.

5. Never leave a fire unless it is dead out. You can't feel safe while there is a spark left.

ANNUAL REPORT OF THE
SUPERINTENDENT OF SCHOOLS

To The Dorchester School Board:

This report, which is my second as your superintendent of schools, will present information designed to help people get a better understanding of school operation and certain recommendations for your consideration.

We are again fortunate this year in having Miss Nellie M. Ashley as teacher in the Cheever School. Her home ties and her interest in Dorchester children account for her continued service with us in preference to work elsewhere at an increased salary. Should a change of teacher become necessary our salary provision would have to be increased sharply. My specific recommendation is that this fact be appropriately recognized in the 1945 budget.

Adequate transportation becomes more costly and harder to secure each year that we go deeper into the war emergency. Because of the detail involved in securing gasoline allotments for school transportation. I recommend that contracts for 1945-46 be made before June 30, 1945.

The plan of bringing our textbooks up to date, started last year, will be continued until our children have new and modern materials with which to work. There is little inspiration for a pupil whose textbook may bear the names of his parents or of others in the same school generation. Thus far we have accomplished the plan adopted in reading for grades one through four; in English for grades three through eight; in handwriting for all grades; in spelling for grades three through eight. Arithmetic, history and geography will receive attention as soon as conditions warrant.

Our 29 pupils last year accumulated a total of 837 half days of absence or an average of 28.8 per child. This means that on an average the town of Dorchester paid for nearly 3 weeks of schooling for every child from which there was no return. We all understand that much of the absence was due to causes beyond our control. However, it should make us all realize the importance of regular school attendance at all times when physical conditions permit.

Parents are asked to examine with special care the citizenship ratings found on the last page of the new report cards. In my opinion that page is an accurate forecast of adult performance after school days are ended. It is an indication of the extent to which correct ideals and attitudes are being established. Long after the factual information gained in school has been forgotten those ideals and attitudes will remain and become powerful influence in shaping the career of each individual.

It is a source of much satisfaction to me that parents have seemed to feel free to raise questions and to discuss school problems with me. Comments, criticisms and suggestions will always be welcome.

To the School Board I wish to express my deep gratitude for their unfailing courtesy and cooperation.

Respectfully submitted,

Arthur S. Rollins,

Superintendent of Schools
